

DAILY NEVADA STATE JOURNAL.

NO. 115.

CHALMER'S ENGLISH CATARRH CURE

Reno, Nevada.

THE SECRETARY OF AGRICULTURE.

Norman J. Colman hails from Missouri. He was born, however, at Richfield Springs, N. Y., in 1827. He was a teacher in early life, studied law, and at last settled at New Albany, Ind. While there he was the business partner of Hon. M. C. Kerr, who afterward became Speaker of the United States House of Representatives. About six years before the war broke out Mr. Colman removed to Missouri, where he bought the Valley Farmer, in St. Louis, and changed its name to Colman's Rural World. It is still published and is authority on farm and garden matters throughout the Southwest. Mr. Colman is a man of mark in Missouri. He has been for several years President of the State Press Association. During the war he was a Union man and Lieutenant Colonel of a militia regiment. He has been a member of the Legislature and Lieutenant Governor of Missouri. He was the originator of the State Board of Agriculture and the founder of the Missouri Horticultural Society. He was appointed Commissioner of Agriculture in March, 1885.

THE NEW DRIFT OF IMMIGRATION.

The San Francisco Bulletin relates how the tide of immigration is directed toward the great Northwest:

Two years ago the drift of immigration to the Pacific Coast was, to a very large extent, confined to Southern California. It seemed to have a close connection with the direction which the tourists were taking. But this year there are about the usual number of tourist trains arriving in the southern part of the State, although it is noted that this drift was not as strong in the early part of the season as in some former years. But this year the two currents of travel to the Pacific Coast have divided. The immigration has not followed the lines of the tourists. Indeed, it has drifted quite away from them. One of the reasons assigned is the increased rates of fare. It undeniably is no different with tourists because the charges to that class were about what they were in former years. Moreover, people who travel for sight-seeing and pleasure do not stand on a difference of a few dollars. But an essential increase in the cost of a ticket to travel decently, and at the same time are compelled to observe the strictest economy in all expenditures. The difference of \$20 or \$30 is a great deal to them. It represents the purchase price of a number of acres of cheap land.

The immigration this year has gone far to the north. It is attracted to Washington Territory and to Eastern Oregon. It appears to follow the lines of the North Pacific and the Canadian Pacific Railroads, especially the former. The Puget sound country is especially attractive. It is better known than formerly. Recent accounts agree that immigration is pouring into that country as never before. Trains are crowded. Cities are growing rapidly on the shores of the Sound. Years ago this journal called attention to the great prospective advantages of that country. All that was predicted in the way of development is about to be fulfilled.

It is probable that the next strong drift of immigration will be into Northern California. There is to-day a great deal of prosperity in that part of the State. Nothing has been overdone. There have been no booms and no inflation. But the towns have been growing rapidly. There is little or no need of irrigation to insure crops. The climate is good and the natural resources very great. Now that immigration has diverged radically from the lines of the tourists, it is presumed that it will maintain these independent currents. It is not all going this year to Washington Territory, but the drift is that direction is one of the notable occurrences of the season. The Pacific Coast is not attracting fewer people than in former years. They have, for the time being, chosen new lines of travel, and are exploring districts further north. At no distant day a similar drift may be noted in Northern California. There is already a healthy current of immigration setting in that direction. But Washington Territory appears just now to have the call.

Computations made by the Treasury Department as to the probable effect on the revenues of the Tariff bill and the Senate amendments have been made public. They show that the House bill would reduce the collections from customs \$50,350,316, and from internal revenue \$13,610,134, or a total reduction of \$66,960,559. The bill as amended by the Senate would reduce the customs collections \$13,978,887 and the internal revenue receipts \$33,905,780, or \$17,882,667 in the aggregate. The average ad valorem rates under the existing law is 46.91. Under the House bill it would be 42.38, and under the Senate bill 46.00.

In his letter transmitting computations, Secretary Fairchild says: "To avoid extra delay and labor, the Department made use of the estimates formerly prepared, based on importations for 1887. Although made according to the plan and theory usually adopted, I recognize that these estimates are largely conjectured and more or less unreliable and misleading."

LIKE A FAIRY TALE.

The Story Which Comes From Wyoming.

Cheyenne, Wyo., Feb. 9.—The discovery of the bodies of eight Mexican prospectors at the mouth of the abandoned San Salvador mine, in the northern part of Wyoming, has brought to light a romantic story, rivaling all the tales about seekers for Captain Kidd's buried treasures.

Miguel Martinez, at the head of a party of his countrymen, was here last Fall for two days. He confided to a Mexican gambler here that they were in search of an abandoned gold mine, which they believed to be rich in metal and were going to develop. Martinez carried a chart traced on parchment, which they said was 200 years old and was made by an ancestor of his in the seventeenth century. The chart had been lost for seventeen years, but recently turned up, and at once a party was organized. The story that had run through the family for generations was that Martinez the elder was at the head of a band of Spanish gold hunters, who were working a rich mine somewhere in this part of the country. The miners quarreled and finally fought, and their division resulted in the abandonment of the mine, though it was very rich. Martinez was wounded and died on the way home. With his blood he traced a chart, which was to be a rich legacy to his children. A faithful friend delivered the document, which soon afterward was lost, and only recently turned up.

Martinez's descendant was told of two mines up north that mineralogists have declared were worked by Spaniards hundreds of years ago. His party was not heard of until to-day, when a hunter named Keller reported that his party had discovered their bodies. All of the Mexicans had been shot and were somewhat out of shape, showing that the struggle was a hard one to band one. There were evidences that the victorious party had lost three or four men, and they had made a hasty departure, carrying the dead and wounded with them. What surprised the hunter most was to find that the mine had recently been worked. It is not known that a pickaxe had touched it since two men starved to death there in 1877. There is reason to think that the San Salvador was not the mine described in the chart, and that the murderers have taken the map and gone off to locate the ancient mine. The fact that the Mexicans' noses and tools were taken, and their jewelry and some money was not removed from their bodies, seems to prove this.

Keller says there was every indication that the San Salvador mine was paying, and believes that the mine sought for by the Mexicans is not far from the other, and is known to the party who was at work. No one but the Mexicans who the murderous prospectors knew, and as the region in which the events occurred is almost inaccessible, it is not likely that anybody will work the old mine and bury the Mexicans before Spring.

High License in Oregon.

SALEM, Or., Feb. 12.—The Senate to night passed the bill making the annual license for the sale of spirituous and vinous liquors, \$400 and for malt liquors \$200. It has already passed the House.

The English Governor of Hongkong, has been petitioned by the Chinese of Hongkong to request the British Government to address the American Government with a view to the withdrawal of the Exclusion bill. The petition contends that the action of the United States and Australia is contrary to the international treaties, and if persisted in will result in the commercial ruin of Hongkong.

Up to date the Central Pacific has had little use for its snow plows. Great preparation was made last Fall for heavy snows, and a rotary plow of the most improved pattern has been lying at Ogden, all Winter, but has only been on the line two or three times. There were continuous snows for three months between Ogden and Humboldt, but they were light, and traffic was not all disturbed.

Senator Stanford gave a Senatorial dinner Tuesday evening, the guests being Senators Blackburn, Butler, Cockrell, Cullom, Farwell, Gibson, Hampton, Hancock, McPherson, Davis, Stewart, Sabin, Paddock, Gray, Pasco and Jones.

The latest Cabinet sensation is a Confederate General for Harrison's Cabinet in order to break up the Solid South. If one will not do it why not throw in the Secretary of Agriculture.

The Senate has raised the salary of the President's Private Secretary from \$3,250 a year to \$5,000.

The bill providing that Reno shall issue \$25,000 sewer bonds has passed the Senate.

West Virginia is liable to ballot all Summer for a Senator.

MISCELLANEOUS.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. SOLUBLE IN WATER.

BREVITIES.

R. W. Parry and family went below last night.

Storey's majority in favor of the lottery was 380.

Ex-Governor Adams came in from the Great East last night.

Supt. Lon Hamilton was a passenger for the Bay last night.

The beef market is a little stronger, and there are several buyers in town.

Senator Edmund has introduced a bill relating to banks and providing for an Examiner.

Mrs. Fio. Pioniger has been confined home for a week past, suffering from a severe cold.

Go to Lunge & Schmitt's for everything inagate ware. Largest assortment in the State.

M. J. Curtis, who had an attack of chills and fever last week, is now able to be out on the street.

Joseph Huber has disposed of his business at Austin, and gone to California to find a new home.

The tax levy for 1899 has been placed at \$3.50 on each \$100 by the Commissioners of Esmeralda county.

The wind storm of Wednesday brought a light fall of snow during the night, but yesterday was clear and bright again.

It is really astonishing how many of the men in business in Reno do not own their own homes, but live in rented houses.

Business for the Golden Gate Special is picking up. The last train to arrive in San Francisco, brought thirty-seven through passengers from Omaha, the largest number yet carried. The special has made the trip with as low as six passengers.

The Legislature is talking of adjourning, but Lemery & Howard, at the Palace restaurant, are not disturbed by any such parliamentary proceedings. Their house is always in session, and meals can be had at all hours of the day or night. Therefore the public is pleased.

J. Bordeaux and two children died, and another child will die, at Shelton, Mason county, Washington Territory, from poison. It is supposed that their cabbage contained poison, as they were all seized with fits immediately after dinner. There is no danger of any person dying from what Geo. Becker has at the Granite, either of eatables or drinkables.

The JOURNAL returns its thanks for a complimentary ticket to the grand ball to be given at Truckee on the 19th inst., by Summit Lodge, No. 54, K. of P., on the occasion of the silver anniversary of the Order. The Truckee brethren are fully alive to the principles of friendship, charity and benevolence, and the JOURNAL is certain that Summit Lodge will entertain its guests in a truly knightly manner.

The Washoe Vote.

The JOURNAL is enabled this morning to give the complete returns of Washoe on the lottery Amendment. The majority against it from the various precincts are as follows:

Reno.....	332
Wadsworth.....	18
Vend.....	14
Huffman's.....	14
Washoe.....	21
Franktown.....	6
Glendale.....	16
Pyramid.....	6
Peavine.....	2
Total.....	434

At Lucerne, a place on Lake Tahoe, 28 votes were cast, and all for the lottery, but it is claimed the vote was illegal, as there was no Registry Agent, and no registration. Should the Commission accept the returns from that precinct Washoe's majority will be reduced from 434 to 406.

San Diego "Busted."

The Sacramento Record-Union, of Wednesday, says: E. W. Day, of the printing firm of Day & Joy, has returned from San Diego with his family, and reside in Sacramento for the future. He went to San Diego a little over a year ago, during the big boom, and went into business, but was glad enough a few days ago to be able to shut up shop and get back to "God's country." He says everything in that section of the State is overdone, and a majority of the largest firms in San Diego have within the past several weeks made assignments.

The Dance.

The Valentine party at the Nevada Theater last night, given by the Guild of Trinity Church, was one of the most pleasant of dances, and the ladies may well feel elated at the success of their venture. Refreshments were served upon the stage, the entire proceeds being devoted to the worthy object of enlarging the Parsonage.

THE GOVERNMENT BUILDING.

A Structure That Will Be an Ornament to Nevada's Capital.

For a long time after the question had been settled that a Government building was to be erected at Carson, it seemed doubtful if the project would ever materialize. The people of our sister city did all in their power, through our Representatives, to carry out the measure for the construction of this, to be, handsome public edifice, and thanks to Nevada pluck and perseverance the mighty structure is now moving upward and when completed will be an ornament, not only to Carson but also to our growing State. The building will be used for Government purposes and also the Carson City Postoffice. The building will be full three stories in height exclusive of the basement and attic and will be constructed and finished in all its details with the finest material in the shape of iron, brick and stone. The foundation is laid with the best Nevada granite and ranges in width from four to eight feet, the bottom being of concrete and the balance of trimmed stone. The greatest care was exercised in the construction of the foundation and notwithstanding the fact that malicious or disappointed parties have endeavored to make it appear that Richard Ryland, who is Superintendent of the work, of construction, has been using material not durable and of a damaged nature, the stone is there to show for itself and is sound and good. True, the major portion of the foundation was taken from the under support of the old Oatier Mill but if a particle of it was placed in the walls that was not suitable, it was previously condemned by Mr. Ryland and found its way there under his protest. But no such rock is discernible and all those who have examined the foundation, who have done so unbiased in their opinion, pronounce the material sound in every particular, thereby positively refuting an unjust statement.

All the brick used in the building are carefully scrutinized by Mr. Ryland, and nothing but the best are placed in the walls. The inside brick work is laid with a Nevada manufactured article while the outside walls are made of San Jose pressed brick and they show off to a fine advantage. The brick work is used, as intended in all the workmanship on the structure, and shows conclusively that even though it be Government work a careful supervision is manifest. Dick Ryland is an old and competent brick mason, takes great pride in his work, and it is questionable if a better or more efficient superintendent of construction could have been found to assume the responsibilities that devolve upon him.

The building is now almost completed to the second story and the iron work, including pillars, etc., is almost all in place for the first floor, and work is now being performed on the second-story walls.

The ornamental stone work is handsome in the extreme and is being cut by J. M. Smith, formerly of Reno and said to be one among the finest ornamental stone artists on the Coast. The designs are beautiful and the blocks are so placed as to show off to a great advantage. John Barrett, well-known in Reno and the discoverer of the now famous blue granite quarry near old Washoe City, is furnishing and also dressing the granite that is used in the construction of the building and it is unnecessary to state that his part of the programme is being carried to perfection.

The iron work is of San Francisco manufacture, of a neat design and the erection of it is under the immediate supervision of Mr. Bigelow, a member of the firm from whom the material was purchased. The ponderous pillars and other metallic supports will give extraordinary strength to the giant structure and also add to its internal and external beauty.

The plumbing, in all its details, including the roofing, is done by Manning & Jacques, of the Riverside town, and all pervision of N. P. J. goes. This firm did the piping done under the careful supervision of the plumbing that was necessary in the Nevada State University, and the Insane Asylum and have always and under all circumstances, rendered excellent service and the durability of their work and the neat manner in which it is performed is the best recommendation this well known firm can have. Mr. Jacques stated to a JOURNAL reporter that it would require in the neighborhood of 2,000 feet of pipe for the sewerage system and probably 1,700 feet for gas, and 1,000 feet for water purposes. The building will either be heated with hot air or steam and thus all require about 500 feet more of pipe. There will be six water closets of the most improved style made of imported solid white earthenware and the urinals will be made of slate of the most improved pattern, marble washbasins, etc. It will thus be seen that every convenience will be found within the building, all of which will be built on the most improved style and made of the best material.

The rough brick were all burned by Nevada's veteran brick maker, Matt Callahan, and are specially selected for the

purpose for which they are being used.

All the soft brick are condemned and will not be placed in the walls unless at the suggestion of the architect.

All the work is of the very best as none but competent men are employed. The building is at all times filled with interested visitors, all of whom concur in the opinion that it will be an ornament when completed, one of which Nevada's can feel justly proud.

BEAUTIFUL SONGSTRESSES.

The Great Attractions Promised in the Conried Opera Company.

Of the four prima donna in the Conried Opera Company all are said to be very beautiful women. First comes Helen Bertran, queenly in figure and carriage, darkly handsome, tall, lithesome and graceful, heads the list. She is young, beautiful, and sings the music of the story of Prince Jolies in a full, well-rounded voice, which has had the excellent schooling of grand opera.

The second is Ada Glasca, the Cincinnati girl. She made her debut as an operatic prima donna on Christmas eve, in the "King's Fool," creating the character of Neissa. She had previously won considerable distinction at the Conservatory of Music in Cincinnati, as a concert soprano. She made an instantaneous hit in opera, more by reason of her wonderful high soprano voice than by her acting, which still bears some traces of amateur methods. She is wealthy and aristocratic and entered upon her stage career solely for her love of art.

The third is the charming, dashing, petite Della Fox, the soubrette of the company, a girl not yet out of her teens, possessed of a beautiful voice and wonderful talent. Miss Fox certainly has charms of face and figure to aid her in her battle to the top of fame's steep mountain. She is chic, daring but always conservative to the point of safety in her methods, and as Yvonne captures the hearts of the audience at once.

The fourth prima donna is Bettina Gerard, formerly Mrs. Peddelford (nee pretty Betty Ordway), daughter of General Ordway of the United States Army, the pet of Washington society. She is the same young lady whose escapades at White Sulphur Springs so startled Eastern society a year or two ago when the young gallants quaffed champagne from her slipper at a state dinner. Miss Gerard has a beautiful soprano voice and is a natural-born actress, besides being very beautiful—rather a pocket edition of Mrs. Potter Brown, it is said.

Patnam and Emerson.

Billy Emerson will be seen in white at the Opera House to-morrow night, introducing his sweet songs and famous impersonations. The company has just closed an engagement in San Francisco and are highly spoken of. As for the star an exchange says:

As Mary Anderson is to tragic art, so is Katie Patnam to the more delicate emotions of life and its portrayal on the stage. Her acting is ideal, the real personified in her; a culmination in perfection which no actress playing her repertoire has ever attained. An attendant on of this is her complete surrender of self to the living embodiment of the character she assumes—no conspicuousness to occasion her joy when pleasure is the emotion, or to fill her eyes with tears when the heart aches. And so she moves her audience. She is queen of the realm she adorns, and no rival has ever risen to dispute her claim.

Phenomenal Weather.

The Truckee Republican says: The Winter of 1898-9 will pass into history as the mildest and most pleasant one ever known in Truckee. In November there was considerable rain, with occasional fair days and once in December and once early in January there were light falls of snow aggregating a foot. From the second week in January the sky has been clear, the days warm and delightful. Most of the snow has disappeared and last Sunday many of our citizens were out walking and enjoying the balmy air. Now a storm is much needed and to all appearances the wished for change is about to come.

This is clever from the Sacramento Bee:

It is not settled yet who will go into the Cabinet, but the battle will have a place in the Interior Department—provided Mrs. Harrison does not change her mind.

Advice to Mothers.

Are you disturbed at night and broken or your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

THE RAILROAD INDEBTEDNESS.

The Silver State comments as follows:

In discussing the Union Pacific Funding bill, which is now before the United States Senate, Senator Stewart gave notice that he would move to instruct the committee to report a bill requiring the railroad companies to expend the amount of their indebtedness to the Government in the construction of improvements on their main lines, such as laying double track, and constructing such works for irrigation as Congress may authorize, and that such limitations may be placed on far as and freights as will insure cheap transportation.

Senator Stewart argues that the one hundred million dollars which the Pacific Railroad owes the Government would benefit the whole country by expending it in improvement on and along the roads much more than by burdening the lines so that they must necessarily charge exorbitant freights to enable them to meet their obligations.

There is no doubt of its being much more beneficial to Nevada to have the railroad expend the amount of its indebtedness in making improvements on the road than to pay the money into the National Treasury, which is now congested with coin. Congress is to a great extent responsible for the existence of Nevada as a State, and it should favor us in every way possible to enable us to maintain a State organization. In this instance it can benefit us by requiring the railroad to expend a certain amount of its indebtedness in making improvements along the line, and putting freight down as low as possible. Nevada silver enabled the General Government to maintain specie payment, and added millions to the Treasury surplus from the profits on silver coinage, and the Government should reciprocate by doing something for the State.

DON'T

Let that cold of yours run on. You think it is a light thing. But it may run into calarh. Or into pneumonia. Or consumption.

Cutarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.

The breathing apparatus must be kept clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Bochee's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is, themselves." Bottle only 75 cents. Ask any druggist.

Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or chulkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Nashby, or of Paul Allger, the drayman.

For Sale.

PALACE DRY GOODS STORE.

STOCK-TAKING BARGAINS!

UNEQUALED VALUES,

AT THE

PALACE

Dry Goods and Carpet House

Beginning Monday, February 11th.

THE NEAR APPROACH OF OUR annual stock-taking prompts us to make another heavy cut in some of our Departments, as we wish to largely reduce our stock previous to that time. To illustrate the ENORMOUS REDUCTIONS made, we this week quote some prices from our Dress Goods Department, especially of Black Goods, and assure our patrons that a visit to our store will repay them by the offering of IRRESISTIBLE BARGAINS.

DRESS GOODS DEPARTMENT:

At 50 cents,	10 pieces Black Real Mohair Sicilian, 55 inches wide.....	worth 75 cts
At 50 cents,	8 pieces Black Iron Frame Alpaca, 40 inches wide.....	worth 75 cts
At 65 cents,	6 pieces Black Real Mohair Silk Finish Alpaca, 40-inch.....	worth \$1.15
At 75 cents,	9 pieces Black Real Mohair Sicilian, 40 inches wide.....	worth \$1.15
At \$1.00,	7 pieces Black Real Mohair Brilliantine, 40 inches.....	worth \$1.50
At 50 cents,	5 pieces Black All Wool Cashmere, 38 inches wide.....	worth 75 cts
At 75 cents,	8 pieces Black All Wool Cashmere, 40 inches wide.....	worth \$1.00
At \$1.00,	6 pieces Black All Wool Cashmere, 40 inches wide.....	worth \$1.50
At 75 cents,	4 pieces Black All Wool Soleil, 40 inches wide.....	worth \$1.25
At \$1.00,	6 pieces Black All Wool Heather Cloth, 40 inches.....	worth \$1.50
At \$1.25,	10 pieces Black All Wool Soleil Amure, 42 in. hes.....	worth \$2.00

There will be great bargains in all of our Dress Goods, as the shelves must be cleared to facilitate stock-taking.

House Furnishing Department:

7 pieces Loomdise Table Damask.....	reduced to 25 cents per yard
5 pieces extra heavy quality Loomdise Table Damask.....	to 45 cents per yard
4 pieces cream double Damask Table Linen.....	reduced to 75 cents per yard
5 pieces bleached Table Damask, All Linen.....	at 50 cents per yard

50 Comforters.....	reduced to 75 cents each
40 pairs 10-4 White Blankets.....	still at \$1 per pair
12 pieces Checked Nainsook.....	reduced to 8 1/2 cents per yard

To insure an immediate clearance we offer these goods at CORRESPONDING REDUCTIONS from regular prices and thus give our patrons and the general public an opportunity to secure bargains infinitely superior to any before offered. Respectfully,

Palace Dry Goods and Carpet House.

Country Orders Promptly and Carefully Executed.

JOHN BREUNER, SACRAMENTO.

JOHN BREUNER,

Furniture and Bedding,

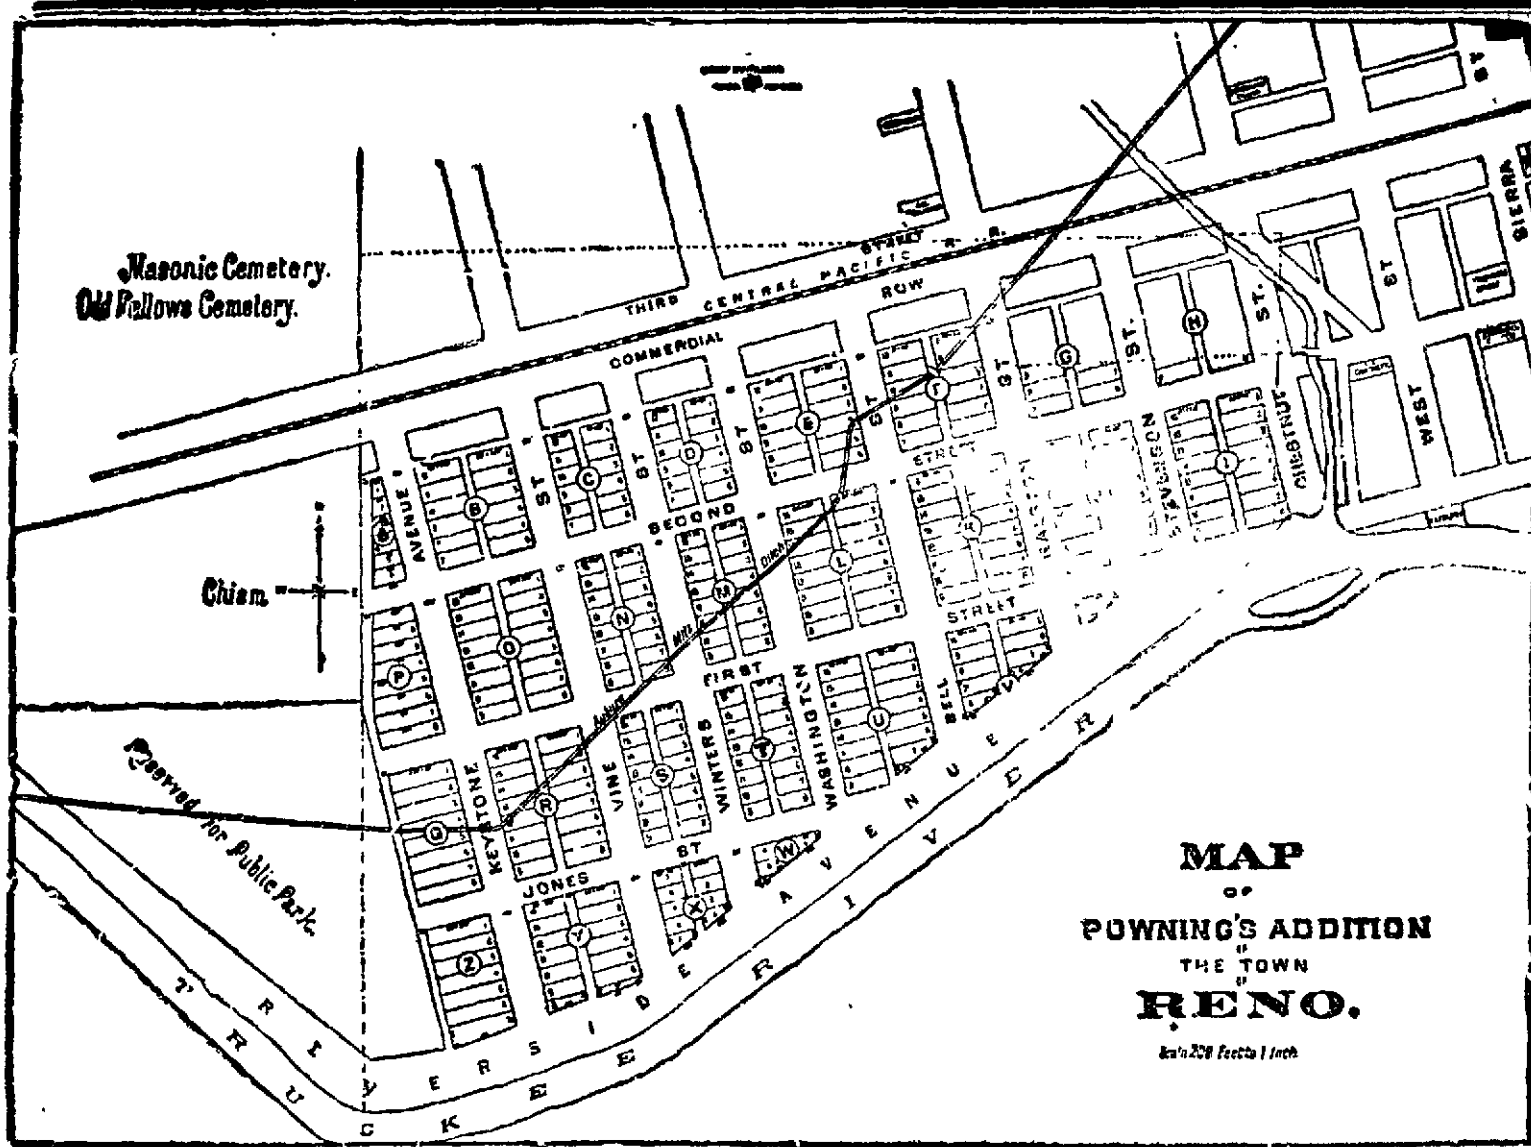

604, 606, and 608 K Street.

SACRAMENTO, CAL.

THE OLD RELIABLE FURNITURE HOUSE OF John Breuner is well worthy of note, and we take pleasure in devoting to it due space and attention. Mr. Breuner has been engaged in this business for thirty-three years and conducts one of the largest business houses in California. He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of photographs of all goods, which will be sent free of charges to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. This is a most convenient and pleasant method for those abroad, and we recommend a trial of it.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO!

Has 5,000 Population and is Growing Rapidly.

The Loveliest Town!

The Cleanest Town!

The Wealthiest Town!

The Healthiest Town!

RENO

Is Supported by the Richest

Farming Country of Nevada,

Northern California and

Southern Oregon.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
